DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 12-14 and 16 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mani ('236) of record for reasons of record.

Claims 12-14 and 16 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mani ('225) of record for reasons of record.

Allowable Subject Matter

Claims 1-3, 5-11 and 15 are allowed over the prior art of record for reasons contained in the response dated 9/6/06.

Response to Arguments

Applicant's arguments filed 9/6/06 have been fully considered but they are not persuasive.

Applicants argue that the present invention is able to treat solutions containing multivalent ions, whereas the Mani patents remove the ions before the electrodialysis. This is not persuasive.

Art Unit: 1753

The present claims are apparatus claims, the material being treated within said apparatus is given little or no patentable weight. The structure of the electrodialysis remains the same. Accordingly, the Mani patents teach the apparatus and the claims stand rejected.
